

# Proposed Restricted Roads (20mph Limit) (Scotland) Bill

## Page 2: About you

Are you responding as an individual or on behalf of an organisation?

an individual

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Member of the public

Please select the category which best describes your organisation

*No Response*

Please choose one of the following; if you choose the first option, please provide your name or the name of your organisation as you wish it to be published.

I am content for this response to be attributed to me or my organisation

Please insert your name or the name of your organisation. If you choose the first option above, this should be the name as you wish it to be published. If you choose the second or third option, a name is still required, but it will not be published.

Tracey Allan-McIntyre

Please provide details of a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number. We will not publish these details.

## Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

**Please explain the reasons for your response**

I want the streets where I live to be made safer, I want to walk my children to school knowing we are safe. I want to be able to cross the road to get to the local shops without worrying I may get knocked down.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

No

**Please explain the reasons for your response**

I think we need this change as many of our local councils use coat not y enforce a safer speed limit.

Q3. What do you think would be the main advantages, if any, of the proposal?

Safer routes to school, safer crossing of roads when there is no proper crossings. Less pollution, more active travel and a healthier population.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

People may get frustrated by having to travel slowly.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Get schools involved as that's where the future generation are more likely to accept these changes.

## Page 12: Financial implications

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
Scottish Government		X				
Local Authorities		X				
Motorists				X		
Other						X

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

<b>Police Scotland</b>						
----------------------------	--	--	--	--	--	--

**Please explain the reasons for your response**

Advertising, enforcing and changing signage will all have a cost implication so council and govt will have to pick up the cost. Motorists will save Mon by perhaps opting to think about whether they need to use a car for a short journey therefore saving money.

Q7. Do you believe there will be any other benefits to reducing the speed limit from 30mph to 20mph?

As I said before a healthier population with less pollution and less likely to be knocked down crossing a road.

## Page 14: Equalities

Q8. What overall impact is the proposed Bill likely to have on the following protected groups (under the Equality Act 2010): race, disability, sex, gender re-assignment, age, religion and belief, sexual orientation, marriage and civil partnership, pregnancy and maternity?

Positive

**Please explain the reasons for your response**

Disabled and less abled bodied will be able to cross the road safely same applies for the young, elderly and pregnant.

Q9. Could any negative impact of the proposed Bill on any of these protected groups be minimised or avoided?

Don't think there will be an negative impact

## Page 16: Sustainability of the proposal

Q10. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impact?

Yes

**Please explain the reasons for your response:**

It ca only be a good thing to have a healthier less polluted society.

## Page 17: General

Q11. Do you have any other comments or suggestions on the proposal to establish a 20mph default speed limit on restricted roads?

No
