## Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Yes (if so, please explain below)

**Please explain the reasons for your response**

Enforcement, mobile speed cameras and heavy fines (income-related, like in the nordic countries) would be even more efficient. Unfortunately enforcement of anything in Scotland is virtually non-existent. So introduction of 20mph limit is at least a step in the right direction.

Q3. What do you think would be the main advantages, if any, of the proposal?

*No Response*

Q4. What do you think would be the main disadvantages, if any, of the proposal?

A lot of whining from drivers.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Enforcement, more enforcement, increased fines.

## Page 12: Financial implications

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure

Positive

Q9. Could any negative impact of the proposed Bill on any of these protected groups be minimised or avoided?

*No Response*
