Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Partially supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

I am not too sure about the proposal as there is not really a problem of speeding within Orkney streets as you cannot get any speed up. However, it may make it easier for the Local Authority so this is why I picked partially supportive.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

No

Q3. What do you think would be the main advantages, if any, of the proposal?

It may save the Local Authority money and with ever decreasing budgets this is important. However, it may save no money!
Also if this is standard then it will be the same rules across all 32 local authorities.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

No Response

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Advertising signage, local paper, local radio etc. Also police enforcement, otherwise the whole proposal is a waste of time!
