Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

Slowing down saves lives - it's that simple.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

Please explain the reasons for your response

Local councils could also reduce speed in urban areas however I think a bill is the best way.

Q3. What do you think would be the main advantages, if any, of the proposal?

Reducing injury and saving lives

Q4. What do you think would be the main disadvantages, if any, of the proposal?

There is always the argument about pollution and fumes but I don't think the evidence is clear.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

police enforcement is key - we live on a 20mph road and people still speed.
