Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

Scotland's towns and cities have become dangerous places for pedestrians and cyclists. There needs to be change in order to make our country safer, cleaner and a place where children and adults can walk and cycle in safety.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

No

Q3. What do you think would be the main advantages, if any, of the proposal?

Fewer road related injuries and fatalities.
Encourage more people to walk or cycle.
Less noise pollution!

Q4. What do you think would be the main disadvantages, if any, of the proposal?

Could it increase emissions? It could cause more traffic build up, however that in turn may force people to consider active travel.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

There would (sadly) be a need for enforcement. Police presence/cameras, signage on road surfaces as well as freestanding.
