## Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

**Please explain the reasons for your response**

As a parent who has walked with small children and pushed a buggy I have often felt very unsafe on the pavement as the cars were driving too fast i.e over 30mph. I would hope that this new speed restriction would slow all drivers down and make them mindful of their speed. It would also make the roads safer for children crossing the road and for people who cycle.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

No

Q3. What do you think would be the main advantages, if any, of the proposal?

Safer roads for all users especially walkers, children, cyclists.

Less air and noise pollution.

It would make people mindful of their speed while driving.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

This proposal will be hard to enforce.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Increased signage and public awareness will need to be increased.
