Partially supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

**Please explain the reasons for your response**

I think the limit should may be changed at certain times of the day only. Although I live on a bus route and school route a lot of people still abuse the speed limits.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

Q3. What do you think would be the main advantages, if any, of the proposal?

Hopefully people especially children would be able to use the pedestrian crossings safely and cars will stop for them.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

Living on a bus route this may disrupt the service?

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

More police presence and tickets given out for offenders, repeat or otherwise, may deter others from breaking the law!
