Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully opposed

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

Overall I have seen no difference to the congestion in Edinburgh as a result of the previous changes. More investment is needed in safe bike lanes and road quality rather than the speed limit.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

Q3. What do you think would be the main advantages, if any, of the proposal?

None

Q4. What do you think would be the main disadvantages, if any, of the proposal?

The focus is wrong, 20mph speed limits have not only increased my spending on fuel but have caused nothing but confusion and further congestion in Edinburgh.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

It's has been barely enforceable in Edinburgh and regularly ignored by drivers! Other than punitive measures such as more speed camera (which I heartily oppose) there is no way to consistently enforce this limit.
