

Proposed Restricted Roads (20mph Limit) (Scotland) Bill

Page 2: About you

Are you responding as an individual or on behalf of an organisation?

an individual

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Member of the public

Please select the category which best describes your organisation

No Response

Please choose one of the following; if you choose the first option, please provide your name or the name of your organisation as you wish it to be published.

I am content for this response to be attributed to me or my organisation

Please insert your name or the name of your organisation. If you choose the first option above, this should be the name as you wish it to be published. If you choose the second or third option, a name is still required, but it will not be published.

Jane Love

Please provide details of a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number. We will not publish these details.

Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

I live in an area with lots of parked cars and find it difficult to observe oncoming traffic. I therefore have to commit myself to stepping onto the road to see if it's clear. I've had a few experiences of being too close to vehicles and also cyclists shouting at me. I am a dog owner but it also must be difficult for parents with prams and children and elderly or disabled people. At least at 20mph you might have more of a chance of avoiding a collision!

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

No

Please explain the reasons for your response

If it's in law its enforceable.

Q3. What do you think would be the main advantages, if any, of the proposal?

Safer streets, less angry drivers/cyclists!

Q4. What do you think would be the main disadvantages, if any, of the proposal?

I don't see any disadvantages.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

It needs to be rigorously enforced like the German law of doubling the fine in child user areas.

Page 12: Financial implications

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
Scottish Government			X			
Local Authorities			X			
Motorists	X					

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

Other	X					
Police Scotland						

Please explain the reasons for your response

Motorists/cyclists would be fined/charged if they break the law.

Q7. Do you believe there will be any other benefits to reducing the speed limit from 30mph to 20mph?

Less pollution, less traffic where speed limit applies.

Page 14: Equalities

Q8. What overall impact is the proposed Bill likely to have on the following protected groups (under the Equality Act 2010): race, disability, sex, gender re-assignment, age, religion and belief, sexual orientation, marriage and civil partnership, pregnancy and maternity?

Positive

Please explain the reasons for your response

It protects all road users.

Q9. Could any negative impact of the proposed Bill on any of these protected groups be minimised or avoided?

Yes avoided.

Page 16: Sustainability of the proposal

Q10. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impact?

Yes

Please explain the reasons for your response:

I don't see any problems with the Bill only positives for all road users especially safety.

Page 17: General

Q11. Do you have any other comments or suggestions on the proposal to establish a 20mph default speed limit on restricted roads?

It might also reduce litter around our streets. My area is a disgrace!
