Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

To save lives and reduce pollution.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

No

Please explain the reasons for your response

This is the quickest way.

Q3. What do you think would be the main advantages, if any, of the proposal?

Lives saved.
Reduction in pollution.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

None.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Fixed speed cameras at likely problem areas.

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

Police Scotland						
----------------------------	--	--	--	--	--	--

Please explain the reasons for your response

Initial costs offset by speeding fines.

Q7. Do you believe there will be any other benefits to reducing the speed limit from 30mph to 20mph?

Motorists mindset becomes fixed on reduced speeds.

Page 14: Equalities

Q8. What overall impact is the proposed Bill likely to have on the following protected groups (under the Equality Act 2010): race, disability, sex, gender re-assignment, age, religion and belief, sexual orientation, marriage and civil partnership, pregnancy and maternity?

Neutral (neither positive nor negative)

Please explain the reasons for your response

No reason for any different impact for protected group members of the community.

Q9. Could any negative impact of the proposed Bill on any of these protected groups be minimised or avoided?

I see no negative impact so cannot answer this question.

Page 16: Sustainability of the proposal

Q10. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impact?

Yes

Please explain the reasons for your response:

No reason it cannot be sustainable.
