Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully opposed

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

30 MPH has been the default speed restriction since I started driving in 1965 I see no reason to change this. What does need changing is education of awareness of ones surroundings instead of looking down at iPhones and walking around with ear plugs in ones ears so one cannot hear what is going on around ones self

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

No

Q3. What do you think would be the main advantages, if any, of the proposal?

NO ADVANTAGE WHATSOEVER as people woul think everybody is doing 20 MPH
Therefore being lulled into a false sense of security, then on driver comes along at 30MPH oh! Surprise that car hit me !!!

Q4. What do you think would be the main disadvantages, if any, of the proposal?

NIL!

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Nil Everybody would ignore it like 50% do at 30 MPH
And we haven't got the police to enforce it anyway, unless you use more speed cameras (sorry Safety cameras)
