## Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully opposed

**Please explain the reasons for your response**

As a driver, I take responsibility for my driving I pay insurance and tax. Parents need to take responsibility for their kids, no matter what speed cars do if the parent doesn't teach their child correctly it won't make a difference what speed drivers do. Kids don't pay insurance if they cause a accident it's still the drive that has to pay the premium. Who is going to compensate me for using extra fuel for traveling slower, what's you next complaint cars will be causing to much pollutions

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

No

**Please explain the reasons for your response**

this is wrong it totally against drivers people that are making these rule have their head clearly rammed up their own arse

Q3. What do you think would be the main advantages, if any, of the proposal?

None your going to cause more road rage more pollution and I'll say more accidents cause kids will think they have more time to run across the roads

Q4. What do you think would be the main disadvantages, if any, of the proposal?

Pissing drivers off, well done its working on me

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

compliance will not happy from me why not put more railings along the pavements it would achieve the same without upsetting anyone

## Page 12: Financial implications

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
Scottish Government	X					

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

<b>Local Authorities</b>	X					
<b>Motorists</b>	X					
<b>Other</b>						X
<b>Police Scotland</b>						

**Please explain the reasons for your response**

Cost of fuel cost of marketing cost of policing it crazy look at the state on Britain and you want police to monitor this pish good one

Q7. Do you believe there will be any other benefits to reducing the speed limit from 30mph to 20mph?

No

## Page 14: Equalities

Q8. What overall impact is the proposed Bill likely to have on the following protected groups (under the Equality Act 2010): race, disability, sex, gender re-assignment, age, religion and belief, sexual orientation, marriage and civil partnership, pregnancy and maternity?

Negative

Q9. Could any negative impact of the proposed Bill on any of these protected groups be minimised or avoided?

*No Response*

## Page 16: Sustainability of the proposal

Q10. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impact?

No

## Page 17: General

Q11. Do you have any other comments or suggestions on the proposal to establish a 20mph default speed limit on restricted roads?

It should not happen Westminster wants to run everything they should maybe test this as well
