Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Partially supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

Rosemount & Mile End Community Council are supportive of any initiative that would improve Road Safety in our area and the Country as a whole. However, we believe that any legislation will be difficult to enforce in Cities due to personnel resources (namely Police).

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

Q3. What do you think would be the main advantages, if any, of the proposal?

Potential reduction in speeds on inner City roads near residential areas.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

Enforcement of the measures.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Clear communication and more resources would be needed for effective police enforcement and it is not clear that this would be the best place to invest public monies on improving Road Safety.
