Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

I think that 20mph is more than adequate for built up areas. As a parent of young children , I believe that reducing the speed limit will make the roads safer for everyone. We live in Ferryhill and certain drivers ignore the speed limit.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

Please explain the reasons for your response

I'm unsure of how bills are passed.

Q3. What do you think would be the main advantages, if any, of the proposal?

Safety for everyone on the roads
Reduced speed with reduce injuries on humans hit by cars

Q4. What do you think would be the main disadvantages, if any, of the proposal?

None

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Road signs
Advertisements to increase public awareness of the change
Cultural change in attitudes were it is deemed socially unacceptable to drive faster than 20mph in built up areas.
