Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

Studies have shown that reducing speed limit saves lives. Making the restriction the default will save costs to councils and help to educate motorists to accept that lower speed limits should be the norm.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

No

Please explain the reasons for your response

As far as I know, this is the only way to amend the default speed limit.

Q3. What do you think would be the main advantages, if any, of the proposal?

Improved safety and lower costs in its implementation.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

Regulation - although that is an issue at the moment.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Advertising, and increased speed camera use.

Page 12: Financial implications

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

	Significant increase in cost	Some increase in cost	Broadly cost- neutral	Some reduction in cost	Significant reduction in cost	Unsure

The there will be any other benefits to reducing the due to traffic speeding up between traffic to accidents. The traffic speeding up between traffic to accidents.	ge would be reduced. Also, local councils will no longer need they do now, for example around schools. The there will be any other benefits to reducing the speed limit on due to traffic speeding up between traffic lights. Reduced here to accidents. The translation of the proposed Bill likely to have on the following proposed; race, disability, sex, gender re-assignment, age, religion as	ge would be reduced. Also, local councils will no longer need to work on properties do now, for example around schools. The there will be any other benefits to reducing the speed limit from 30mph to an due to traffic speeding up between traffic lights. Reduced health care and the to accidents. The traffic speeding up between traffic lights are to accidents. The traffic speeding up between traffic lights are to accidents. The traffic speeding up between traffic lights are to accidents.

Q10. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely futur
disproportionate economic, social and/or environmental impact?

Yes

Please explain the reasons for your response: I cannot see any reason why not.

Page 17: General

Q11. Do you have any other comments or suggestions on the proposal to establish a 20mph default speed limit on restricted roads?

No Response
