Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Partially supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

20 MPH to be effective must be over a short stretch of road eg opposite a school, with progressive speed limits either side. Drivers loose concentration is driving slowly for too long.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

Q3. What do you think would be the main advantages, if any, of the proposal?

People will get used to driving at that speed through time.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

Lack of enforcement and education of the new limits
Phasing in period before enforcement

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Some form of parking restrictions which need teased out.
Clarity about roles and ownership of the objective
