Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

I live on Stuart Street and I would say that upwards of 75% of traffic passing by my house is over the speed limit. Many at 40mph+. Every day 10 or more cars travel at 50 even 60mph. Come and sit on a bench and see for yourself. I have taken to parking my car on the street to create traffic jams to slow the traffic. Just as I write this two cars passed one right after another at 50 mph approximately.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Yes (if so, please explain below)

Please explain the reasons for your response

An occasional speed trap!!! Please.

Q3. What do you think would be the main advantages, if any, of the proposal?

Safety.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

None

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Traffic calming measures such as chicanes.

Q7. Do you believe there will be any other benefits to reducing the speed limit from 30mph to 20mph?

Safety is enough.

Page 14: Equalities

Q8. What overall impact is the proposed Bill likely to have on the following protected groups (under the Equality Act 2010): race, disability, sex, gender re-assignment, age, religion and belief, sexual orientation, marriage and civil partnership, pregnancy and maternity?

Neutral (neither positive nor negative)

Please explain the reasons for your response

This question has no relevance here.

Q9. Could any negative impact of the proposed Bill on any of these protected groups be minimised or avoided?

Really? Are we not all equal?

Page 16: Sustainability of the proposal

Q10. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impact?

Yes

Please explain the reasons for your response:

I thought I was taking a survey about speed limits.
