## Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

**Please explain the reasons for your response**

Concerned about safety 40 mph can feel like 30 to a driver but 20mph more likely to be in a lower gear and speed less likely to drift up without driver realising it

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

**Please explain the reasons for your response**

Don't know enough about how these things are done

Q3. What do you think would be the main advantages, if any, of the proposal?

Increased safety ,Less noise and possibly less traffic if people decide to alter route

Q4. What do you think would be the main disadvantages, if any, of the proposal?

Policing it I suspect we don't have the resources and drivers may ignore it anyway

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

May need extra resources initially for a short period Advetising should explain the benefits so people want to adhere to it
