Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

**Please explain the reasons for your response**

I am happy for temporary 20mph limits to be set up around schools at the time pupils will be outside school grounds, however I don't feel the need to impose it permanently in all urban areas.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

Q3. What do you think would be the main advantages, if any, of the proposal?

None

Q4. What do you think would be the main disadvantages, if any, of the proposal?

All traffic going much slower, causing congestion and frustration

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Large signs regularly placed along 20mph zones.

Costs of imposing regulations & regulating it. Fuel costs more as card taking longer to get to final destination. Can't see any saving for anyone.

No.

Neutral (neither positive nor negative)

**Please explain the reasons for your response**

It's not going to impact either way on any protected groups. It's not aimed solely at protected groups it's aimed at everyone.

N/A
