Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully opposed

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

As a long suffering motorist, I think we already have far too many of these measures including: * Cycle lanes * Speed bumps * Roads deliberately narrowed to impede the flow of traffic and * Unnecessary traffic lights, whose sole purpose seems to be to create delays. We certainly don't need any more.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

No

Please explain the reasons for your response

This question assumes that I agree with the aims of the Bill but I don't.

Q3. What do you think would be the main advantages, if any, of the proposal?

No Response

Q4. What do you think would be the main disadvantages, if any, of the proposal?

More delays, bureaucracy, "Nanny State" - need I go on?

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Once again, I have already said that I don't agree with this proposal and don't want it so the question is irrelevant.
