

Proposed Restricted Roads (20mph Limit) (Scotland) Bill

Page 2: About you

Are you responding as an individual or on behalf of an organisation?

an individual

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Member of the public

Please select the category which best describes your organisation

No Response

Please choose one of the following; if you choose the first option, please provide your name or the name of your organisation as you wish it to be published.

I am content for this response to be attributed to me or my organisation

Please insert your name or the name of your organisation. If you choose the first option above, this should be the name as you wish it to be published. If you choose the second or third option, a name is still required, but it will not be published.

Chris Johnston

Please provide details of a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number. We will not publish these details.

Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

I live next to the school that my two grandsons attend and am often horrified at the speed people drive up and down the street. Dozens of children come down the lane and have to cross our street to get home, speed and the way people park (blocking the view forcing children to exit between parked cars) are both dangerous and needs to be addressed.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

No

Q3. What do you think would be the main advantages, if any, of the proposal?

Children's safety which should be paramount.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

None

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Speed bumps

Page 12: Financial implications

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
Scottish Government		X				
Local Authorities			X			
Motorists			X			
Other			X			
Police Scotland						

Q7. Do you believe there will be any other benefits to reducing the speed limit from 30mph to 20mph?

Lower blood pressure not having to witness dangerous driving.

Page 14: Equalities

Q8. What overall impact is the proposed Bill likely to have on the following protected groups (under the Equality Act 2010): race, disability, sex, gender re-assignment, age, religion and belief, sexual orientation, marriage and civil partnership, pregnancy and maternity?

Neutral (neither positive nor negative)

Please explain the reasons for your response

What a stupid question!!

Q9. Could any negative impact of the proposed Bill on any of these protected groups be minimised or avoided?

The only 'protected group' I'm interested in are the CHILDREN!

Page 16: Sustainability of the proposal

Q10. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impact?

Yes

Page 17: General

Q11. Do you have any other comments or suggestions on the proposal to establish a 20mph default speed limit on restricted roads?

I fully support this proposal but am at a loss as to what race, sexual orientation, gender reassignment etc etc can possibly be affected by reducing a speed limit on a road next to a school.
