Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

We believe that 30mph limit currently is too fast for around the residential areas with our school catchment area. We would be fully supportive if this was to change from 30 to 20 mph for the safety of our children and all others crossing roads and walking along side roads.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

Q3. What do you think would be the main advantages, if any, of the proposal?

Safety for our children.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

Motorists adhering to the 20mph speed limit and the police making sure this is happening.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Advertising - getting the motorists who are not convinced that this will benefit all.

Changing the mind set of motorists.

Educating the newly qualified the importance to adhere to this.
