## Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

**Please explain the reasons for your response**

Whilst there will still be drivers who ignore the limit, it should increase the overall safety of residential streets, and possibly check those who habitually drive too fast. It might also put off those who use certain streets as "rat-runs".

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

Q3. What do you think would be the main advantages, if any, of the proposal?

More care taken by drivers in residential areas, making it safer for pedestrians, children and pets. Also quieter.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

Limit will still be ignored by a minority

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Speed bumps, prominent signage and targeted policing with heavy fines.

Positive

**Please explain the reasons for your response**

Positive impact on age related protected groups, parents and those with a disability. The elderly, the disabled, parents with children, and children will find it easier to use the streets as pedestrians, and the risk of being hit by a vehicle will be reduced.

*No Response*
