

# Proposed Restricted Roads (20mph Limit) (Scotland) Bill

## Page 2: About you

Are you responding as an individual or on behalf of an organisation?

an individual

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Member of the public

Please select the category which best describes your organisation

*No Response*

Please choose one of the following; if you choose the first option, please provide your name or the name of your organisation as you wish it to be published.

I would like this response to be anonymous (the response may be published, but no name)

Please insert your name or the name of your organisation. If you choose the first option above, this should be the name as you wish it to be published. If you choose the second or third option, a name is still required, but it will not be published.

Please provide details of a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number. We will not publish these details.

## Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

**Please explain the reasons for your response**

20 mph is a more natural speed for traffic in urban areas and contributes to the reduction of the speeding culture that endangers safety.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

**Please explain the reasons for your response**

Banning cars in some areas or making some roads non-through roads could have similar effect

Q3. What do you think would be the main advantages, if any, of the proposal?

A cultural shift away from the "car is king" mentality.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

None

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Some physical re-design of roads to force reduction in speed

## Page 12: Financial implications

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
Scottish Government				X		
Local Authorities		X				
Motorists			X			
Other			X			

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

<b>Police Scotland</b>						
----------------------------	--	--	--	--	--	--

**Please explain the reasons for your response**

Cost is difficult. Health and other advantages can outweigh any initial cost implications of physical infrastructure

Q7. Do you believe there will be any other benefits to reducing the speed limit from 30mph to 20mph?

For children the perception of traffic speed that is not too fast will give them confidence to mix with traffic in some circumstances, eg cycling.

## Page 14: Equalities

Q8. What overall impact is the proposed Bill likely to have on the following protected groups (under the Equality Act 2010): race, disability, sex, gender re-assignment, age, religion and belief, sexual orientation, marriage and civil partnership, pregnancy and maternity?

Positive

**Please explain the reasons for your response**

It is positive for everyone, but disability groups in particular will benefit.

Q9. Could any negative impact of the proposed Bill on any of these protected groups be minimised or avoided?

Unsure

## Page 16: Sustainability of the proposal

Q10. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impact?

Yes

**Please explain the reasons for your response:**

No reason to believe any group will be economically impacted. All other impacts are positive.

## Page 17: General

Q11. Do you have any other comments or suggestions on the proposal to establish a 20mph default speed limit on restricted roads?

No
