Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

**Please explain the reasons for your response**

For the safety of children and older people trying to cross. If there is anything we can do to make roads safer we should absolutely do it.

Unsure

Q3. What do you think would be the main advantages, if any, of the proposal?

Safety for communities.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

Disgruntled drivers.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

More police with speed guns. The 'slow down' sign.

## Page 12: Financial implications

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure

Local Authorities			X			
Motorists				X		
Other						X
Police Scotland						

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

**Please explain the reasons for your response**

Funding initially would most likely one from Scottish government. Any cost to the local authority should be recouped in speeding fine revenue. Loyally drivers insurance should go down if there are less accidents.

Q7. Do you believe there will be any other benefits to reducing the speed limit from 30mph to 20mph?

Reduced emissions, road damage.

## Page 14: Equalities

Neutral (neither positive nor negative)

Q9. Could any negative impact of the proposed Bill on any of these protected groups be minimised or avoided?

*No Response*

## Page 16: Sustainability of the proposal

Q10. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impact?
