

Proposed Restricted Roads (20mph Limit) (Scotland) Bill

Page 2: About you

Are you responding as an individual or on behalf of an organisation?

an individual

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Academic with expertise in a relevant subject

Please select the category which best describes your organisation

No Response

Please choose one of the following; if you choose the first option, please provide your name or the name of your organisation as you wish it to be published.

I would like this response to be anonymous (the response may be published, but no name)

Please insert your name or the name of your organisation. If you choose the first option above, this should be the name as you wish it to be published. If you choose the second or third option, a name is still required, but it will not be published.

Please provide details of a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number. We will not publish these details.

Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Please explain the reasons for your response

Many other nations have already taken this step. It helps make our roads safer, but also begins to reclaim space from motorised vehicles. This can help regenerate areas and make for a more pleasant living and working environment.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

No

Q3. What do you think would be the main advantages, if any, of the proposal?

Better living environment for citizens.
 More encouraged to walk and cycle.
 Strengthening of communities.
 Reduction in road casualties.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

Moaning media.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Focus on road layout design around pedestrians and cyclists. This will help encourage motorised vehicle drivers to use a more sustainable mode of transport for short journeys. Consider best practice examples from The Netherlands.

Page 12: Financial implications

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
Scottish Government			X			
Local Authorities			X			

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

Motorists			X			
Other						
Police Scotland						

Please explain the reasons for your response

Others: consider the NHS and local businesses. With more people travelling by foot or bike local shopping is likely to increase. Costs at the NHS will decrease if less people travel by car.

Q7. Do you believe there will be any other benefits to reducing the speed limit from 30mph to 20mph?

See previous answers.

Page 14: Equalities

Q8. What overall impact is the proposed Bill likely to have on the following protected groups (under the Equality Act 2010): race, disability, sex, gender re-assignment, age, religion and belief, sexual orientation, marriage and civil partnership, pregnancy and maternity?

Neutral (neither positive nor negative)

Please explain the reasons for your response

It will benefit everyone.

Q9. Could any negative impact of the proposed Bill on any of these protected groups be minimised or avoided?

NA

Page 16: Sustainability of the proposal

Q10. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impact?

Yes

Please explain the reasons for your response:

Got to be better than road deaths, eh?

Page 17: General

Q11. Do you have any other comments or suggestions on the proposal to establish a 20mph default speed limit on restricted roads?

Get on with it!
