Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

There is far too much speeding in the present 30mph limits. There is going to be a serious accident in our village unless something is done about this problem.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

Q3. What do you think would be the main advantages, if any, of the proposal?

As long as it is enforced it may well save lives.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

I can't think of any. Perhaps some drivers may become impatient and take risks.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

I think speed bumps would help to enforce the 20mph limit.

I have no idea of the financial implications. No doubt the motorists would bear the brunt.

Q7. Do you believe there will be any other benefits to reducing the speed limit from 30mph to 20mph?

I would hope that,if it is enforced,it will lead to safer streets and fewer accidents.

Unsure

Please explain the reasons for your response

I've no idea!

Q9. Could any negative impact of the proposed Bill on any of these protected groups be minimised or avoided?

I have no idea!
