Fully opposed

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

**Please explain the reasons for your response**

Impractical for traffic to operate effectively at this speed:

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

**Please explain the reasons for your response**

not enough knowledge of how such (mandatory??) legislation can be enacted

Q3. What do you think would be the main advantages, if any, of the proposal?

None

Q4. What do you think would be the main disadvantages, if any, of the proposal?

*No Response*

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

I would like to know how many offences have been recorded in Central Glasgow since its inception!  
Unless there are frequent speed checks there will continue to be flagrant violations....I drive and cycle every day in the city and see it constantly being ignored

Neutral (neither positive nor negative)

**Please explain the reasons for your response**

This is just a silly question!

Neutral in my view

## Page 16: Sustainability of the proposal

Q10. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impact?

**Please explain the reasons for your response:**

Another silly question of the genre that seems to creep in to all such 'inquiries'!

## Page 17: General

Q11. Do you have any other comments or suggestions on the proposal to establish a 20mph default speed limit on restricted roads?

Begin to redesign public 'traffic spaces' in urban areas such that speed is moderated by the nature of the layouts
