Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

**Please explain the reasons for your response**

Having experienced the problems of Edinburgh's roll out I feel a new default of 20mph would be easier for everyone to understand and hopefully cheaper with less signage.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

**Please explain the reasons for your response**

Don't know enough about this

Q3. What do you think would be the main advantages, if any, of the proposal?

Clarity - and better safety on our residential streets.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

Frustration of drivers late at night e.g. taxi drivers when the streets are empty.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Ensure that some enforcement is seen to be happening.

Slightly positive

**Please explain the reasons for your response**

Roads less dangerous in residential areas.

not sure

## Page 16: Sustainability of the proposal

Q10. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impact?

Unsure

**Please explain the reasons for your response:**

There may be an economic impact that would need to be balanced against the increased road safety.
