## Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

**Please explain the reasons for your response**

Many drivers are unwilling or incapable of driving at a safe speed according to road conditions. They require clear guidance to limit their speed.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

No

**Please explain the reasons for your response**

Local council had a consultation about 20mph limit which had a limited response and is taking a long time to implement even in the few locations which had a large number in favour of the reduced limit.

Q3. What do you think would be the main advantages, if any, of the proposal?

Safer streets

Q4. What do you think would be the main disadvantages, if any, of the proposal?

More people braking the law

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

More discreet speed traps
