

Proposed Restricted Roads (20mph Limit) (Scotland) Bill

Page 2: About you

Are you responding as an individual or on behalf of an organisation?

an individual

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Member of the public

Please select the category which best describes your organisation

No Response

Please choose one of the following; if you choose the first option, please provide your name or the name of your organisation as you wish it to be published.

I would like this response to be anonymous (the response may be published, but no name)

Please insert your name or the name of your organisation. If you choose the first option above, this should be the name as you wish it to be published. If you choose the second or third option, a name is still required, but it will not be published.

Please provide details of a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number. We will not publish these details.

Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

This proposal makes it clearer for drivers what speed they should be doing. It makes it safer for pedestrian's and other road users and should still have little impact on journey times.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

No

Please explain the reasons for your response

This should be a universal implementation. Ideally it should be UK wide but a resident in Scotland I am happy for it to be implemented here.

Q3. What do you think would be the main advantages, if any, of the proposal?

Clarity on speed and safety.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

There may be resistance from some drivers.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Electronic signs are the most effective measure for ensuring compliance. Occasional speed checks may be needed.

Page 12: Financial implications

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
Scottish Government		X				
Local Authorities		X				
Motorists				X		
Other			X			

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

Police Scotland						
----------------------------	--	--	--	--	--	--

Please explain the reasons for your response

New signage and other enforcement advertising etc will have cost. Reduced accidents will lower insurance cost and lower speeds result in generally lower fuel use. I can't see any other parties being impacted.

Q7. Do you believe there will be any other benefits to reducing the speed limit from 30mph to 20mph?

I think I have listed them all.

Page 14: Equalities

Q8. What overall impact is the proposed Bill likely to have on the following protected groups (under the Equality Act 2010): race, disability, sex, gender re-assignment, age, religion and belief, sexual orientation, marriage and civil partnership, pregnancy and maternity?

Neutral (neither positive nor negative)

Please explain the reasons for your response

This is a stupid question. It lends itself to getting ridiculous answers.

Q9. Could any negative impact of the proposed Bill on any of these protected groups be minimised or avoided?

This would be marketing the reasons why. For example I have had a demonstration from the police of what hitting a (dummy) child is like in the car at 20 miles an hour and it has had a powerful impact on my driving. More interaction with the public like this especially key drivers should make this a very positive change.

Page 16: Sustainability of the proposal

Q10. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impact?

Yes

Please explain the reasons for your response:

I have outlined my reasoning in previous answers.

Page 17: General

Q11. Do you have any other comments or suggestions on the proposal to establish a 20mph default speed limit on restricted roads?

None
