Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

**Please explain the reasons for your response**

As a very experienced motorist, motorcyclist and cyclist I consider that the safety of vulnerable road users will be greatly improved by this change.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

Q3. What do you think would be the main advantages, if any, of the proposal?

Lower atmospheric and noise pollution as cyclists will be encouraged to make more local trips by bicycle. Less accidents and less severe accidents. A more healthy population with less strain on health services.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

A lot of complaints from motoring organisations and shopkeepers which will be largely unfounded

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Good advertising campaigns including bus signage as well as hoardings and radio TV ads. Clear road markings.
