Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

I feel that 30mph is still not slow enough to be travelling at if a child runs out on the road. In built up areas there is also cats and dogs often on the road, these are family pets.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

Q3. What do you think would be the main advantages, if any, of the proposal?

For safety of pedestrians, pets and also drivers.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

Traffic getting backed up. It might take longer for a space in the traffic to cross the road safely.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

i think the speed signs that light up with your speed work well.
