Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Partially supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

I support it in principal and the benefits that it would bring for safety, lower emissions, and promoting alternative forms of transport, but there needs to be more education and enforcement of the law otherwise it means that those that do adhere to the limit are in the minority and as I have experienced many times before then become subject to intimidation and aggressiveness from other road users that do not wish to drive at 20mph.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

Q3. What do you think would be the main advantages, if any, of the proposal?

No Response

Q4. What do you think would be the main disadvantages, if any, of the proposal?

No Response

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

More speed cameras. Public media campaign. Better enforcement of the law by the police. More direct messaging as many people still don't realise that some roads are a 20mph limit.
