Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully opposed

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

20 mph is a step too far in shifting responsibility from pedestrian to drive. It is also almost exactly the speed most cars aren't happy going at. Finally, risk homeostasis means that fatalities will dip then return to normal

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

No

Please explain the reasons for your response

This should be debated!

Q3. What do you think would be the main advantages, if any, of the proposal?

None whatsoever. This is a foolish and expensive plan.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

Angry motorists. Life is hard enough as it is. Burned out gear boxes. Slower journeys off peak.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Actual *consistent* police enforcement.

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

Police Scotland

Please explain the reasons for your response

It will cost a fortune to put up all the signs. Cars don't like 20mph and will wear out.

Q7. Do you believe there will be any other benefits to reducing the speed limit from 30mph to 20mph?

None.

Page 14: Equalities

Q8. What overall impact is the proposed Bill likely to have on the following protected groups (under the Equality Act 2010): race, disability, sex, gender re-assignment, age, religion and belief, sexual orientation, marriage and civil partnership, pregnancy and maternity?

Unsure

?

Q9. Could any negative impact of the proposed Bill on any of these protected groups be minimised or avoided?

No.

Page 16: Sustainability of the proposal

Q10. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impact?

No

Please explain the reasons for your response:

It's a stupid, meddling idea.
