Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

I gained my licence in Glasgow, when it was the driver's responsibility to drive to the conditions. I've seen the result of imposing limits on drivers and making them think that driving just under the limit is safe. DRIVER EDUCATION IS THE WAY FORWARD .

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Yes (if so, please explain below)

Please explain the reasons for your response

DRIVER EDUCATION . In short ,making them aware of the safe speed for that road given the hazards that might occur, and going back to the old days of police education with the option of enforcement.

Q3. What do you think would be the main advantages, if any, of the proposal?

NON

Q4. What do you think would be the main disadvantages, if any, of the proposal?

NON

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

WHY reduce the limit without looking at EDUCATION of drivers.
