Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully opposed

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

This is unenforceable. The police admit this is unenforceable, it therefore is a huge waste of money. No studies have shown that 20mph limits are genuinely effective and I have concerns that artificially low speed limits distract drivers from the road ahead and onto their speedometer.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

No

Q3. What do you think would be the main advantages, if any, of the proposal?

None

Q4. What do you think would be the main disadvantages, if any, of the proposal?

Huge cost to local authorities to replace all road signs for them to be blanketly ignored and unenforced by Police Scotland.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

None, Police Scotland have more pressing issues in their organisation to address first.

It will cost money to implement, and no benefit will be seen
