Q1.۱	Which	of the	following	ng best	expres	ses y	our/	view	of the	proposal	to	replace	the o	current	30mph	default
spee	ed limit	on res	stricted	roads	with a 2	0mp	h lim	it.								

Fully opposed

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

It's not the speed limits that is the cause of accidents, it's the lack of attention certain people give when driving. Reducing to 20mph is a ridiculous proposal to make it seem like you are doing something about it -but you're not.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

No

Q3. What do you think would be the main advantages, if any, of the proposal?

None.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

As I live in town and travel through towns to get to work, it will take me much longer to do my journey. I would much rather spend that time with my boys before school.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

None it's not a good idea.

Q11. Do you have any other comments or suggestions on the proposal to establish a 20mph default speed limit on restricted roads?

Complete waste of time that could be spent sorting actual problems in Scotland.
