Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

Increased congestion, will also come across as revenue generation. Increased journey times in the odd quiet spells, longer delivery times impacting on business.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Yes (if so, please explain below)

Please explain the reasons for your response

Yes, instead of a blanket knee jerk selective lowering of limits

Q3. What do you think would be the main advantages, if any, of the proposal?

None, nanny state intrusion, plain and simple.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

All previously stated;

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Again, would be seen as revenue generation, you would need to recover the substantial costs from speed traps
