## Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

**Please explain the reasons for your response**

20mph would help with modal shift away from the car, as 20mph limits save lives and make safer streets, encouraging people to walk and cycle, it would also encourage car drivers to switch to alternative modes. This provides opportunity to increase rate of physical activity. 20mph limit would be positive measure for air quality - typically leading to smoother driving and overall vehicle emissions reduction.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

**Please explain the reasons for your response**

Awaiting detail on the Active travel Taskforce, where this hopefully also is being discussed.

Q3. What do you think would be the main advantages, if any, of the proposal?

Safer roads  
Shift from reliance on car vehicle to walking/cycling  
Promotion of physical activity  
Reduction in vehicle emissions

Q4. What do you think would be the main disadvantages, if any, of the proposal?

None

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Supporting behaviour change campaign as well as enforcement.
