Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

Our school is on a busy road which leads to a dam, we have yellow lines and zig zag lines and the parents still park. We are so so scared that a child will be struck by a car as this is very dangerous. You really need to see this for yourself as it's hard to explain.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

Q3. What do you think would be the main advantages, if any, of the proposal?

It would put parents minds at ease

Q4. What do you think would be the main disadvantages, if any, of the proposal?

No Response

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

No Response

Q7. Do you believe there will be any other benefits to reducing the speed limit from 30mph to 20mph?

Yes I do if a child does get hurt it wouldn't be as bad as it would be if it was 30mph

Q11. Do you have any other comments or suggestions on the proposal to establish a 20mph default speed limit on restricted roads?

We also have a special needs school attached to our school and these kids get brought to school in mini buses and they sometimes can't get up for parents parking everywhere
