Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

All residential areas should have 20mph limit to ensure safety and a more relaxed experience when driving,cycling or walking in local areas.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

Please explain the reasons for your response

I had hoped that my local council and others could implement this speed limit as it suited local communities. However on reflection passing it into law would ensure uniform application of the limit throughout Scotland,in residential areas without exception

Q3. What do you think would be the main advantages, if any, of the proposal?

Safety, enforced courtesy between all road users and perhaps the next generation will drive more carefully.It would also discourage drivers speeding in local areas

Q4. What do you think would be the main disadvantages, if any, of the proposal?

none, only benefits

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Large signage. Selected area targeting by the police where necessary.Warnings to begin with to avoid resentment by motorists.

| Other | | | | | | |
| Police Scotland | | | | | | |

Please explain the reasons for your response
apart from initial outlay no expectation of increased costs

Q7. Do you believe there will be any other benefits to reducing the speed limit from 30mph to 20mph?

A more relaxed and sensible attitude to driving through local areas

Page 14: Equalities

Q8. What overall impact is the proposed Bill likely to have on the following protected groups (under the Equality Act 2010): race, disability, sex, gender re-assignment, age, religion and belief, sexual orientation, marriage and civil partnership, pregnancy and maternity?

Neutral (neither positive nor negative)

Please explain the reasons for your response
why should it have adverse effects on anyone

Q9. Could any negative impact of the proposed Bill on any of these protected groups be minimised or avoided?

no impact

Page 16: Sustainability of the proposal

Q10. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impact?

Yes

Please explain the reasons for your response:
it would be beneficial
