## Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

**Please explain the reasons for your response**

Our school is a rural school that is positioned off a B road which is often used by larger vehicles and lorries to bypass road works on main A9 road. The increased traffic has caused great concern to the parents in the school as the only footpath that our pupils can use is open, not protected with any barrier on to the road, and also they have to cross to get to school. Thankfully we do still have 'lollipop' assistance.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

Q3. What do you think would be the main advantages, if any, of the proposal?

Standard approach to speed limits in residential areas and highlighting the need to reduce speed.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

*No Response*

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Police prescene is definatly an effective tool to hghlight restrictions. However in many areas speed islands and physical barriers will be the only way to reduce all drivers speeds.
