Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

As a parent who collects there child from school everyday I have seen the speed that traffic drives past the drop off points. There is other schools in the area that has the boards flashing advising you that you are approaching a school and makes you aware of this which I think is really good.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

Q3. What do you think would be the main advantages, if any, of the proposal?

It would be a lot safer for our children who walk/cycle to school. Something should be set in place to target drivers who are putting the childrens lives at risk by driving over the limit

Q4. What do you think would be the main disadvantages, if any, of the proposal?

None

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

I think you have it covered in advertising signage and police enforcement . Maybe a TV campaign like they held when the driving with mobile phones law came into place as it made everyone aware

Page 12: Financial implications

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
