Fully opposed

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

**Please explain the reasons for your response**

You spend more time looking for road signs to determine what the current speed limited is rather than concentrating on other road uses and pedestrians.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

No

Q3. What do you think would be the main advantages, if any, of the proposal?

The proposal is more dangerous and unnecessary

Q4. What do you think would be the main disadvantages, if any, of the proposal?

None only revenue collection.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

There is no need for this restriction.

Police Scotland						

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

**Please explain the reasons for your response**

Extra signage and markings, lots of fought cases against the limits, extra policing when there are now needed in other areas of our community.

Q7. Do you believe there will be any other benefits to reducing the speed limit from 30mph to 20mph?

None.

## Page 14: Equalities

Q8. What overall impact is the proposed Bill likely to have on the following protected groups (under the Equality Act 2010): race, disability, sex, gender re-assignment, age, religion and belief, sexual orientation, marriage and civil partnership, pregnancy and maternity?

Neutral (neither positive nor negative)

**Please explain the reasons for your response**

What a stupid racist question.

Q9. Could any negative impact of the proposed Bill on any of these protected groups be minimised or avoided?

Your proposal is only negative.

## Page 16: Sustainability of the proposal

Q10. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impact?

No

## Page 17: General

Q11. Do you have any other comments or suggestions on the proposal to establish a 20mph default speed limit on restricted roads?

Change it back just like other cities have, tried and failed.
