Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

Our village has many children the majority of whom walk or cycle to school. They also play outside. Reducing the speed of traffic from 30mph to 20mph reduces the risk of harm to these kids. Even with a 30mph speed limit through our village many people drive too fast. 20 mph would be less ambiguous.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

No

Please explain the reasons for your response

Strong and unambiguous

Q3. What do you think would be the main advantages, if any, of the proposal?

See previous response, less risk to kids

Q4. What do you think would be the main disadvantages, if any, of the proposal?

Difficult to enforce

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Signs that show actual speed of motorists, speed cameras and speed traps
