Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully opposed

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

In my view an unnecessary change. In our own village there is never an opportunity to exceed 30 mph due to the restricted and congested nature of the streets. This would be an added expenditure for no benefit. The only road close to the school already displays 20 mph signage. Needs to be done selectively as at present, not with a blanket approach. Let's focus on essentials please.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Yes (if so, please explain below)

Please explain the reasons for your response

By using existing Council powers in a common sense way.

Q3. What do you think would be the main advantages, if any, of the proposal?

None

Q4. What do you think would be the main disadvantages, if any, of the proposal?

Added congestion and increased pollution from slow moving cars in low gears.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Expensive unnecessary signage, and dumping of existing perfectly good signs

Q8. What overall impact is the proposed Bill likely to have on the following protected groups (under the Equality Act 2010): race, disability, sex, gender re-assignment, age, religion and belief, sexual orientation, marriage and civil partnership, pregnancy and maternity?

Neutral (neither positive nor negative)

Please explain the reasons for your response

Strange question

Q9. Could any negative impact of the proposed Bill on any of these protected groups be minimised or avoided?

N/A
