

Proposed Restricted Roads (20mph Limit) (Scotland) Bill

Page 2: About you

Are you responding as an individual or on behalf of an organisation?

an individual

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Member of the public

Please select the category which best describes your organisation

No Response

Please choose one of the following; if you choose the first option, please provide your name or the name of your organisation as you wish it to be published.

I would like this response to be anonymous (the response may be published, but no name)

Please insert your name or the name of your organisation. If you choose the first option above, this should be the name as you wish it to be published. If you choose the second or third option, a name is still required, but it will not be published.

Please provide details of a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number. We will not publish these details.

Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Please explain the reasons for your response

As a parent with 4 children including a child with ASD, i firmly believe that road safety must be taken seriously. On the small number of occasions when I collect my children from school I have witnessed many careless drivers who do not appreciate how quickly children become distracted around traffic. We have a duty of care to our children and young people.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

Please explain the reasons for your response

I do not know how else you can dress this issue.

Q3. What do you think would be the main advantages, if any, of the proposal?

By slowing the traffic, there is more time for drivers to react and observe the children.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

Drivers may find other routes and they could become more busy.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Publicity of the proposed changes with time for drivers to adjust.

Page 12: Financial implications

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
Scottish Government			X			
Local Authorities			X			

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

Motorists			X			
Other			X			
Police Scotland						

Please explain the reasons for your response

After initial signage what further costs would there be? Drivers will still get to their destination.

Q7. Do you believe there will be any other benefits to reducing the speed limit from 30mph to 20mph?

No Response

Page 14: Equalities

Q8. What overall impact is the proposed Bill likely to have on the following protected groups (under the Equality Act 2010): race, disability, sex, gender re-assignment, age, religion and belief, sexual orientation, marriage and civil partnership, pregnancy and maternity?

Positive

Please explain the reasons for your response

As stated previously, I am the parent of a child with ASD, he frequently becomes anxious if there is any traffic nearby. The faster the car the more anxious he is. Also fast moving traffic causes him to "freeze" so a lower limit would give the driver more time to see him if he were ever to be on the road.

Q9. Could any negative impact of the proposed Bill on any of these protected groups be minimised or avoided?

No Response

Page 16: Sustainability of the proposal

Q10. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impact?

Yes

Page 17: General

Q11. Do you have any other comments or suggestions on the proposal to establish a 20mph default speed limit on restricted roads?

No Response
