Fully opposed

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

There are no police to enforce this so don't see the point in wasting money putting up signs and making kids think the cars are going slower than they actually are. The speed bumps within the estate are enough kids never play on southcraig drive any way.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Yes (if so, please explain below)

Please explain the reasons for your response

If speed cameras were introduced and police to enforce this.

None

Q4. What do you think would be the main disadvantages, if any, of the proposal?

Additional costs to the taxpayer with the new road markings and signs that will be needed for this.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.
