## Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Partially supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

**Please explain the reasons for your response**

I live in glasgow city centre and I would say only the minority of drivers observe this 20mph speed limit. Would support if it's actually enforced

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

Q3. What do you think would be the main advantages, if any, of the proposal?

Less pedestrians injured in rtc

Q4. What do you think would be the main disadvantages, if any, of the proposal?

No enforcement

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Strong and visual police enforcement every single day

## Page 12: Financial implications

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure

Police Scotland						

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

**Please explain the reasons for your response**

Reduction in speed would reduce those affected in collisions which would be positive for the economy.

Q7. Do you believe there will be any other benefits to reducing the speed limit from 30mph to 20mph?

*No Response*

## Page 14: Equalities

Q8. What overall impact is the proposed Bill likely to have on the following protected groups (under the Equality Act 2010): race, disability, sex, gender re-assignment, age, religion and belief, sexual orientation, marriage and civil partnership, pregnancy and maternity?

Positive

**Please explain the reasons for your response**

Gives those less mobile greater time and opportunity to cross the road

Q9. Could any negative impact of the proposed Bill on any of these protected groups be minimised or avoided?

It's not clear what impact the change would have on air quality and this needs assessed before implementation

## Page 16: Sustainability of the proposal

Q10. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impact?

Yes

**Please explain the reasons for your response:**

Air quality impact warrants further investigation
